

PRESS RELEASE

As the Spring begins there are always new events happening. This year, Kings Beach based Estate Landscape & Irrigation, Inc. is pleased to announce the addition of Brian Brown, LEED AP certified, as General Manager. Brian's responsibilities include Managing the Landscape Design, Construction, Maintenance and Irrigation Divisions of Estate Landscape. He will be assisted by long time employees Salvador Flores, Francisco Mina and Raphael Guillen. With his arrival to the Estate Landscape team, Brian brings over 12 years of experience to further enhance the company's capabilities in landscape design, project planning, project supervision and client cost awareness.

Brian attended Arizona State University and received his Bachelors degree in landscape architecture in 1998. Brian has worked on projects throughout California, Arizona, Nevada and Mexico since his graduation. His talents also include experience in Landscape Maintenance Operations while working for various landscape services companies in Arizona.

Brian achieved his LEED AP certification in 2009 from the US Green Building Council. His accreditation adds in depth knowledge and expertise in sustainable landscape design and construction to Estate Landscape's long list of unique capabilities. Architects and contractors alike will appreciate his knowledge and strength in sustainable project management, as LEED certified structures and projects becomes more of the standard in the North Lake Tahoe/Truckee area.

Brian began his new position at the start of this year's season in early April. His wife and family will be relocating from southern California soon and are looking forward to being back in beautiful North Lake Tahoe. Welcome Brian!
